

# ULV PLATE COMPACTORS

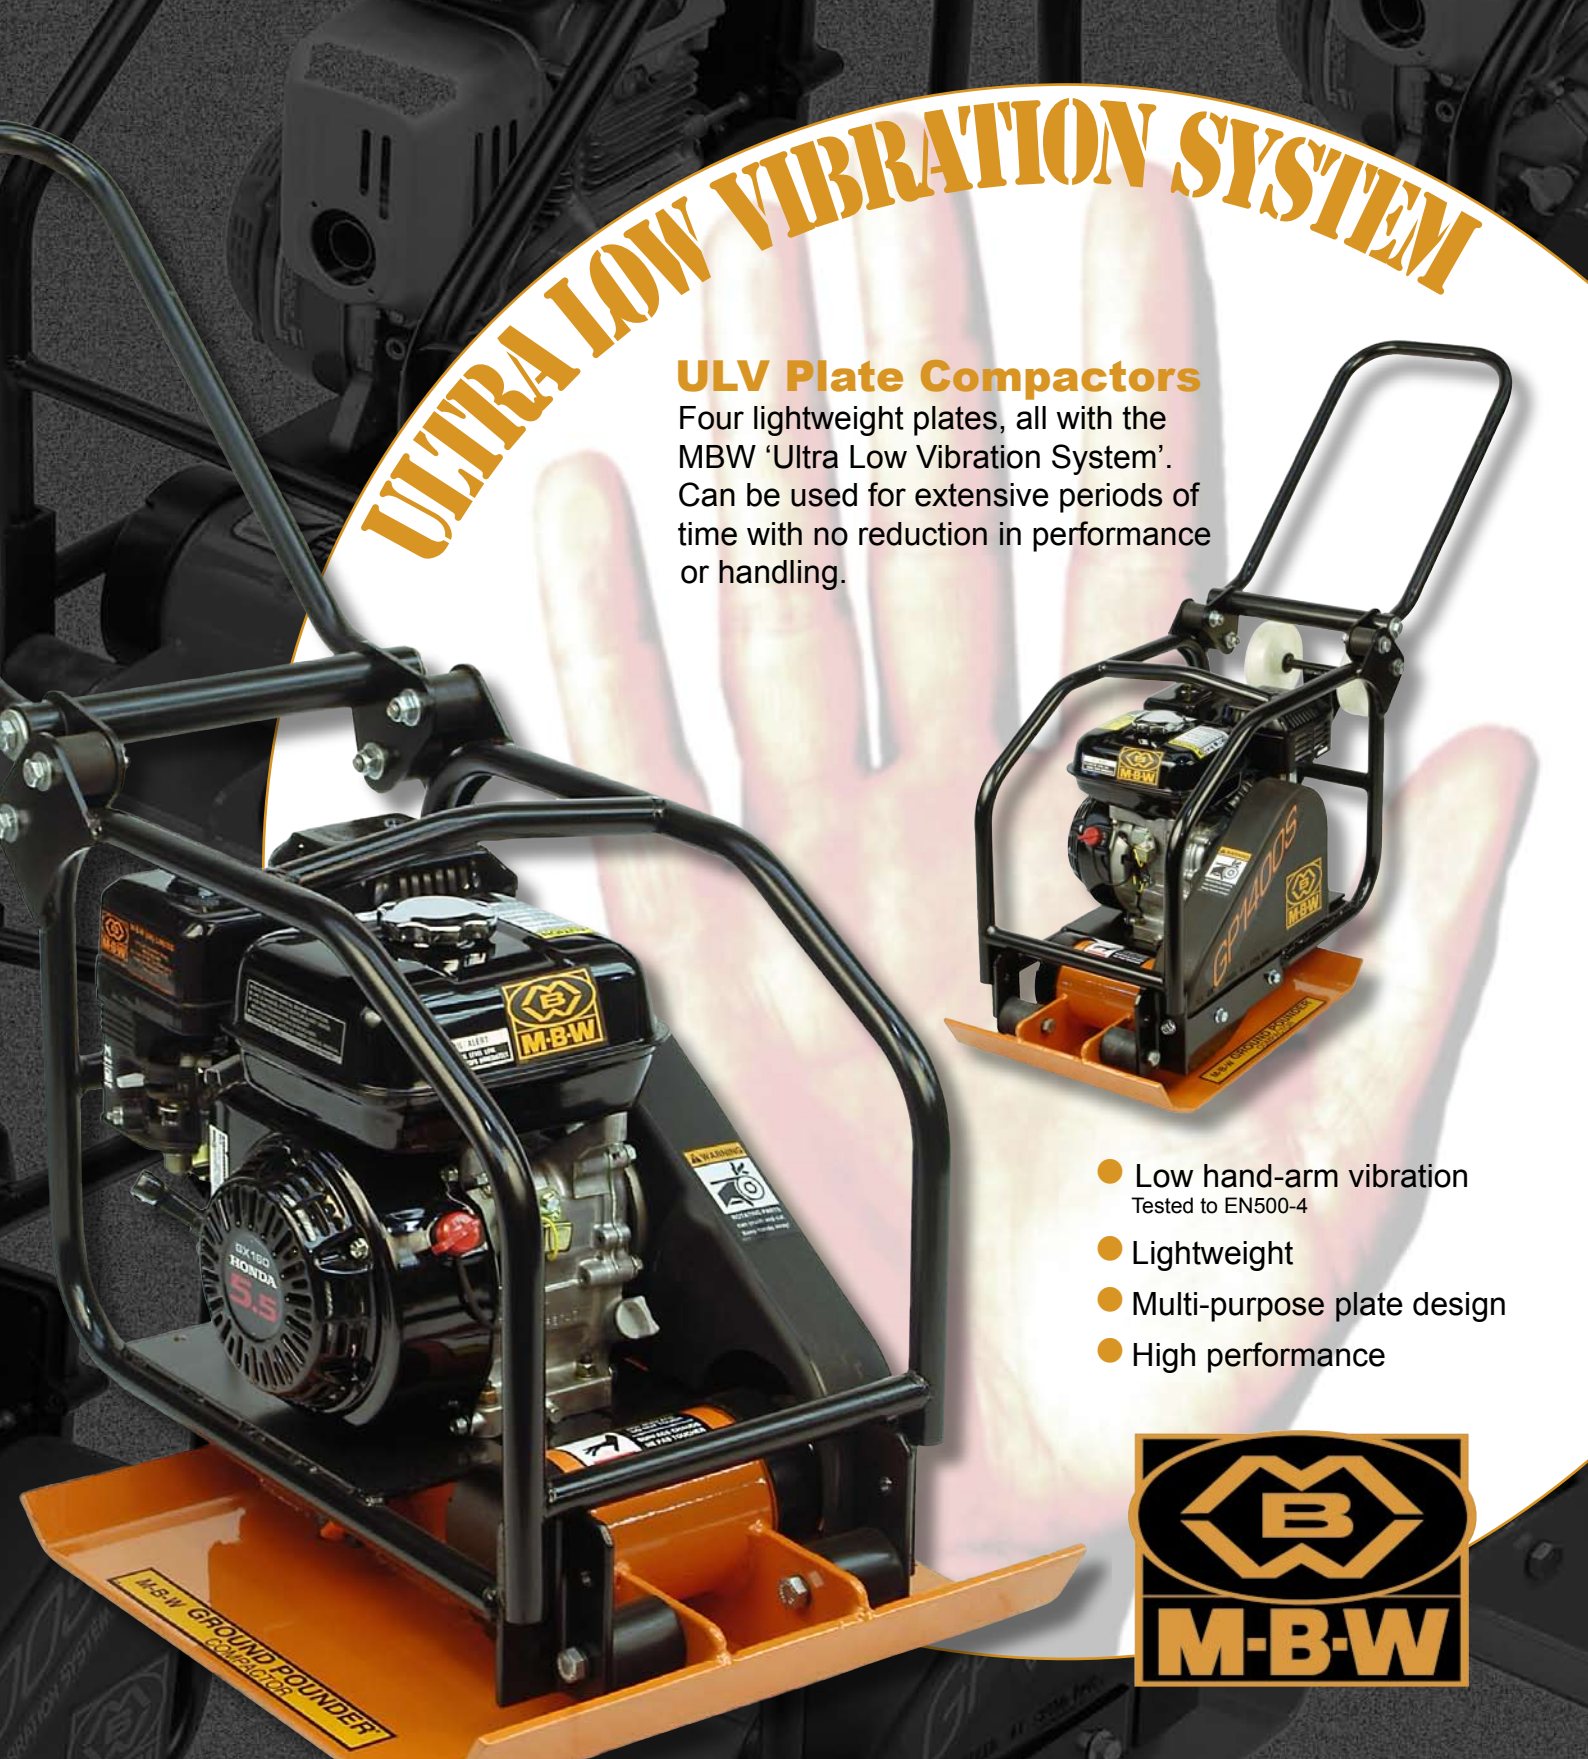

## ULTRA LOW VIBRATION SYSTEM

### ULV Plate Compactors

Four lightweight plates, all with the MBW 'Ultra Low Vibration System'. Can be used for extensive periods of time with no reduction in performance or handling.

- Low hand-arm vibration  
Tested to EN500-4
- Lightweight
- Multi-purpose plate design
- High performance

# ULV PLATE COMPACTORS

The MBW 'Ultra Low Vibration System' reduces hand-arm vibration levels without an excessive increase in machine weight.

Manual handling and the risk of spinal or muscular injury is as important to MBW as reducing the risk of HAVS.

Triple axis anti-vibration handle mounting

Handle folds flat for storage and transport

Wheel Kit (optional)

Steel belt guard protector  
Self cleaning base plate

The frame design gives grip areas at the front, back and sides for improved manual handling. A central lifting point and the ability to fit the optional wheel kit completes the MBW attention to operators handling needs.

Water spray kit (optional)

Model	Weight	Plate size W x L (mm)	Centrifugal Force (kgs)	Travel Speed (m/min)	Engine
GP1200S	49	305 x 535	970	21	Honda GX100
GP1400S	63	355 x 535	1,150	24	Honda GX120
GP 1600S	66	405 x 535	1,250	26	Honda GX120
GP 2500S	70	455 x 535	1,400	26	Honda GX160
